SPEC has determined that this result is not in compliance with the SPEC CPU2006 run and reporting rules. Specifically, SPEC was notified that an attempt to reproduce the published result did not come within SPEC’s requirements for run-to-run variation. Upon re-review, it was determined that the system configuration does not meet SPEC’s requirements for documented and supported systems, and does not meet SPEC's requirements for general availability.

Results appear in the order in which they were run. Bold underlined text indicates a median measurement.

### Submit Notes

The numactl mechanism was used to bind copies to processors. The config file option 'submit' was used to generate numactl commands to bind each copy to a specific processor. For details, please see the config file.
SPEC has determined that this result is not in compliance with the SPEC CPU2006 run and reporting rules. Specifically, SPEC was notified that an attempt to reproduce the published result did not come within SPEC's requirements for run-to-run variation. Upon re-review, it was determined that the system configuration does not meet SPEC's requirements for documented and supported systems, and does not meet SPEC's requirements for general availability.

Operating System Notes
Stack size set to unlimited using "ulimit -s unlimited"

General Notes
Environment variables set by runspec before the start of the run:
LD_LIBRARY_PATH = "/usr/cpu2006/libs/32:/usr/cpu2006/libs/64:/usr/cpu2006/sh"

Binaries compiled on a system with 1x Core i7-860 CPU + 8GB memory using RedHat EL 6.4
Transparent Huge Pages enabled with:
    echo always > /sys/kernel/mm/redhat_transparent_hugepage/enabled
Filesystem page cache cleared with:
    echo 1>/proc/sys/vm/drop_caches
runspec command invoked through numactl i.e.: numactl --interleave=all runspec <etc>

Base Compiler Invocation
C benchmarks:
C++ benchmarks:
    icc   -m64
Fortran benchmarks:
    ifort -m64

Benchmarks using both Fortran and C:
    icc -m64 ifort -m64
